

## HANSA MEDICAL

a division of Hansa Mold Tool & Dies, Inc.

July 12, 2011

To Whom It May Concern:

I wanted to take a moment to write this letter of recommendation for Coastal Courier Messenger Service in regard to their care and dedication when it comes to delivering our important materials and products that service the medical community. Our deliveries are not only time sensitive but also need to be done on a consistent, on-going basis and over the last few years of service; Coast Courier has proven to be more than reliable. Outside of our need for a timely and dependable delivery service, our products can exceed normal weight and quantity expectations often having upwards of 20-25 fairly heavy containers that need to be transferred to our clients. With Coastal Courier, these weight and quantity issues have never been a problem as our materials have always been delivered on time and by a pleasant and presentable driver. As a large part of our business, we assemble products for Arthrex, Inc. which is the largest engineering and manufacturing company of innovative orthopedic products in the area as well as providing services world-wide and by using Coastal Courier to transport these specialty products, we at Hansa can rest comfortably knowing that our most valued client is being serviced to the highest possible standard. I would strongly recommend that anyone in need of a trustworthy courier service take the time to talk to the friendly and informative staff at Coastal Courier Messenger Service.

Thank you,

Jody Naso
