To Whom It May Concern:

I am pleased to be asked to provide a letter of reference for Coastal Courier Messenger Service, a service I've used for several years. We have four locations, all of which have lab drawings on patients, and along with the usual moving of supplies and communication between offices, Coastal Courier Messenger Service has provided us with a most dependable, consistent and safe means of getting this done. Our lab specimens need to be couriered in a timely fashion and they accomplish this reliably. They have never complained when at times large amounts of supplies are moved from our main location to one of the other sites. When I've needed a pager couriered from Ft. Myers to one of our offices, this is accomplished in an amazingly brief amount of time. You expect good service when routes are set up, however, when something unexpectedly shows up, it's pleasant to find that this is handled in the same efficient manner.

I would not hesitate to recommend their services, You may call me at 239-649-3350 should you need have questions as to the quality of their performance as a courier service.

Sincerely,

A handwritten signature in cursive script that reads "Terry Boisvert". The signature is written in black ink and is positioned above the typed name and title.
